DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action or the MPEP.

Claim Rejections - 35 USC § 102

Claims 1, 2, 3, 18-21, 24, 25-29, 32, 33 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Svendsen et al., US 2004/0044312. See all of the figures, first shield (body 3), second shield (cover sleeve 4), urging member (spring 8). The retaining device is best depicted in Figure . The release mechanism is shown by trigger 20.

Claim Rejections - 35 USC § 103

Claims 22, 23, 30, 31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Svendsen et al., '312. Regarding claims 22, 23, 30, 31, glass is a common element for syringe construction and a design choice dependent upon whether the syringe is intended to be reused or disposed.

Allowable Subject Matter

Claims 4-17, 33-42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3767

The following is a statement of reasons for the indication of allowable subject matter: None of the prior art shows or suggests the particular retaining devices as claimed.
